Project Grading Rubric

Course: IT599 Unit: 1  Points: 100

Project 1 – Points = 100
Outcomes addressed in this activity:

Unit Outcomes:
1. Assess IT project theory and practice

Course Outcome:
- IT599-1: Evaluate the theory, principles, and practices of information systems.

Project Instructions:

Write a 2-3 page paper (excluding title, abstract, introduction, and references) describing the concepts of the Information Systems Delivery Cycle (SDLC) and how the Project Management Life Cycle can be effectively leveraged to deliver IT projects meeting time, cost, and schedule. Integrate and synthesize concepts from the readings, or other credible sources researched (no Wikipedia please), throughout the paper, as appropriate. Identify how these concepts have been applied, or may apply, within a specific project – either through personal experience or as researched. For optimal scoring, please ensure that at least two (2) sources are cited. Use APA formatting and include a list of references used.

Project requirements:

A suggested outline for this assignment is:

- Title page
- IT SDLC Overview
- PM Life-Cycle Overview
- Synthesis of IT SDLC and PM Life-Cycle
- Real-Life IT Project Application
- Conclusion
- References

Note: Assignments are graded and test your comprehension of the weekly learning outcomes for each unit. All written assignments should be completed using APA format, unless otherwise noted in the instructions. There is an APA template in Doc Sharing that you can download and use for written assignments.
